COASTAL CONTROL (KYSTKONTROL)

There are four types of COASTAL CONTROL reports:

1. Sailing Plan (SP).—The SP is sent as a first report upon departure.

2. Position Report (PR).—If the voyage will be over 24 hours in duration, and the vessel is equipped with a radio, a PR will be sent at least once every 24 hours to the Coast Radio Station to which the SP was addressed.

3. Deviation Report (DR).—A DR will be sent to the Coast Radio Station to which the SP was addressed, as follows:

a. If there are any changes to the information given in the SP.

b. If the arrival time increases by more than 1 hour.

4. Final Report (FR).—The FR is sent to the Coast Radio Station to which the SP was addressed immediately upon arrival at the vessel's destination.

The first line of a COASTAL CONTROL message is one of the following:

Type of Report	Format
SP	COASTAL CONTROL/SP//
PR	COASTAL CONTROL/PR//
DR	COASTAL CONTROL/DR//
FR	COASTAL CONTROL/FR//

See the Appendix for more information on the format of COASTAL CONTROL messages.

For the purpose of transmitting COASTAL CONTROL messages, Greenland waters have been divided into a number of control areas, each based on a Coast Radio Station. The limits of these areas are, as follows:

1. Coast Radio Station Ammassalik (OZL)—East coast N of 60°31'N.

2. Coast Radio Station Qaqortoq (OXF)—East coast S of 60°31'N and W coast S of 61°30'N.

3. Coast Radio Station Aaslaa (OYR)—West coast N of 61°30'N.

All reports should be addressed to the appropriate Coast Radio Station. The report shall begin with the word COASTAL CONTROL Reports with this prefix are carried free of charge (PUBS 028/02) 48/02
